

Can you believe it! Summer has officially arrived! White shoes and white clothes!

Why is it that Memorial day represents such a pivotal time of year for us? Is it the fact that we are conditioned from a very young age that school is almost over and summer vacation is here? Is that why so many people take this time to go on break!

The east coast provides four different seasons with different weather patterns. Many east coasters need this time of year to really revamp from the long winter. How will you be spending your summer? How will you allow your employees to spend theirs? This is a great time to share your successes with them by gifting them with a summer surprise. Here are some of the ways the KB Experience suggests you have a good start to summer fun!

- A "Family Day" picnic - rent a space at a local park and invite family members to join in the fun!
- Tail Gate Friday - take the lunch hour into the afternoon and have a food fest. A contest of best dish can add spice to the event.
- Sales low- give an incentive a free day off during the summer months
- And remember, flex time is especially important when employees want a head start on the weekend - be creative.

Many of these ideas can be accomplished easily and quickly. This is what The KB Experience can help you with.
